

Bug Report Example #1

Bug ID: BUG-101

Title: Login button becomes unresponsive after entering invalid password 3 times

Environment: Chrome 120, Windows 10

Severity: High

Priority: Medium

Steps to Reproduce:

1. Open login page
2. Enter valid email
3. Enter wrong password 3 times
4. Attempt 4th login attempt

Expected Result:

Login button should remain clickable.

Actual Result:

Login button becomes disabled and does not respond.
