

Test Plan – Login Module (Sample)

Objective: Validate the login functionality for correctness, usability, and reliability.

Scope:

- Functional testing
- Negative testing
- Error messages
- UI validation
- Cross-browser testing

Tools:

- Chrome
- Firefox
- Edge

Responsibilities:

- Mohammadreza Alijani – Test design, test execution, reporting

Entry Criteria:

- Feature completed
- Test environment ready

Exit Criteria:

- All test cases executed
- No critical or high-priority bugs remain open

Risks

Example:

- Delayed backend integration
- Unstable test environment
- Missing requirement documentation

Assumptions

Example:

- All necessary user accounts are available
- Feature requirements are finalized

Out of Scope

Example:

- Performance testing
- Security testing
- API testing

Test Schedule

Example:

- Test design: Jan 12–14
- Test execution: Jan 15–17
