📄 UI/UX Assessment – Login Screen

Issues Found:

1. **Button not aligned properly** on mobile resolution

2. **Forgot password link** too small and not accessible

3. **Error message color** fails WCAG accessibility standards

4. **No password strength indicator**

5. **Form labels missing for screen readers**

Recommendations:

- Align UI elements using consistent spacing

- Increase clickable area for links

- Improve contrast ratio

- Add password strength indicator

- Improve accessibility tags

Severity level per issue

Example:

- Issue 1: Medium

- Issue 2: Low

- Issue 3: High

- Issue 4: Medium

- Issue 5: High
